ABOUT

Over **10 years of experience** in diverse design fields. Tackle complex product challenges, and **lead key projects** as a designer. Work closely with teams from various departments, making the most out of any kind of feedback.

Proficient in **mentoring newcomers**. Passionate about continuous learning, sharing knowledge and experiences. Attend design-related conferences as a listener, and contribute as a speaker at local meetups.

EXPERIENCE

Sr. Product Designer at ICE Mortgage Technology

Nov'19 - Now | 5 yrs

An omnichannel solution that intelligently automates key mortgage business processes for lenders, investors and servicers in the U.S. market.

At ICE, I **launched multiple projects** from scratch and significantly improved existing ones, resulting in reduced loan document processing times, enhanced document checking accuracy, and better quality of auto-recognition and data extraction engines.

I actively participate in various meetings to **simplify complex features** and optimize design processes. Additionally I **host a weekly Design Review** series for designers to present designs and receive feedback.

With **extensive experience in Design Systems**, I created a component library in Sketch, developed documentation and usage guidelines, and contributed to Angular components. Recently migrated the library to Figma and conducted workshops for designers and devs.

Also, I conduct **research** and **validate solutions**, including offline at major mortgage conferences, ensuring our designs meet industry standards and user needs.

Product Designer at GreyLoud

May'18 - Sep'19 | 1 yr 6 mos

A compliance audit system which helps LIDL to ensure that a vendor organization is following laws, rules, regulations and guidelines.

As the sole designer, I collaborated with business analysts, product owners, and the technical team **from ideation to product launch**. I played a key role in transforming an inefficient spreadsheet-based system into an **intuitive and accessible platform**, improving audit management, task automation, and data handling.

Additionally, I actively participated in company **meetups and events**, contributing to design discussions. To support the project's scalability, I **developed a design system**, styling native React components (Ant Design based) in Sketch and later migrating everything to Figma.

Web studio and marketing agency specializing in diverse projects for small and medium-sized businesses.

I worked at WideWeb for 3.5 years and learned a lot during that time. My **main focus was on UX/UI design** for various projects, including websites and mobile **apps for iOS and Android** tablets and phones. I worked on projects of different complexity and domains, from simple landing pages to **complex services** and **innovative startups**.

In addition to UX/UI, I also handled **branding, communication design, and print materials**, designing everything from business cards to billboards. In the last two years, I combined design with development, transforming mockups into interactive and responsive pages using **HTML, CSS, and JS**, and integrating them into CMS platforms like MODX, WordPress, and 1C-Bitrix.

EDUCATION

Artificial Intelligence (AI)

Brest State Technical University

Sep'16 - Jan'18

Master's degree in technical sciences. Distance education.

Automated Information Processing Systems

Brest State Technical University

Sep'11 - Jul'16

Bachelor's degree in IT engineering. Full-time education.

SKILLS

Process

Design thinking, JTBD, Brainstorm facilitation, Lean UX, Prioritisation, Rapid prototyping, Design systems, Design sprints, Iteration, Usability studies, Accessibility, User research, Competitive analysis, User stories, Implementation review

Tools

Figma, Sketch, Miro, Principle, Adobe CC (Photoshop, Illustrator, After Effect), Axure, Protocie, Lucidchart, InVision, VS Code, Jira, Confluence, etc

Soft

Empathy, Effective collaboration and communication, Analytical skills, Critical thinking, Adaptability, Diplomacy, Open-mindedness

Language

English B2

Polish B1

Russian Native
