ABOUT

Senior Product Designer with 12 years of experience designing complex B2B and fintech products.

Specializing in **workflow optimization**, **document automation**, and **data-heavy interfaces**.

Led end-to-end product design for mortgage platforms used by lenders across the U.S., **reducing document processing time** and **improving data extraction accuracy**.

Experienced in **design systems**, **cross-functional collaboration**, and **product discovery**.

EXPERIENCE

Sr. Product Designer at ICE Mortgage Technology

Nov'19 - Now | 6+ yrs

An omnichannel solution that intelligently automates key mortgage business processes for lenders, investors and servicers in the U.S. market.

Led the design of several product initiatives within a mortgage automation platform used by lenders across the U.S., improving document processing workflows and verification systems.

Collaborated closely with product managers, engineers, and business stakeholders to simplify complex operational and regulatory requirements.

Validated product concepts and prototypes with industry professionals at major mortgage conferences to ensure solutions met real user needs.

Established and host a weekly Design Review to improve design quality and knowledge sharing across the team.

Built and maintained a design system, including creating a component library, documentation, and leading the migration from Sketch to Figma.

Product Designer at GreyLoud

May'18 - Sep'19 | 1 yr 6 mos

A compliance audit system which helps LIDL to ensure that a vendor organization is following laws, rules, regulations and guidelines.

As the **sole designer**, I worked closely with product owners, business analysts, and engineers **from ideation to launch**, transforming an inefficient spreadsheet-based workflow into an intuitive audit management platform.

The solution **improved task automation, audit tracking, and data handling** across the system.

To support scalability, I **introduced a design system** by styling Ant Design React components in Sketch and later migrated the library to Figma.

Web studio and marketing agency specializing in diverse projects for small and medium-sized businesses.

Designed UX/UI for a **variety of digital products**, including **websites and mobile apps** for iOS and Android across **multiple industries**.

Worked on projects ranging from marketing websites and landing pages to more **complex web services** and **startup products**.

In later projects, **combined design with front-end development**, turning mockups into responsive interfaces using HTML, CSS, and JavaScript and integrating them with CMS platforms such as WordPress, MODX, and 1C-Bitrix.

EDUCATION

Artificial Intelligence (AI)

Brest State Technical University

Sep'16 - Jan'18

Master's degree in technical sciences. Distance education.

Automated Information Processing Systems

Brest State Technical University

Sep'11 - Jul'16

Bachelor's degree in IT engineering. Full-time education.

SKILLS

Process

Product Discovery • User Research • JTBD • UX Strategy • Interaction Design • Information Architecture • Usability Testing

Design Systems • Component Libraries • Accessibility • Design Documentation

Stakeholder management • Cross-functional collaboration • Design workshops • Mentoring

Tools

Figma • Sketch • Miro • AI tools • ProtoPie • Principle • Adobe CC • Jira • Confluence • VS Code

Soft

Empathy • Cross-functional collaboration • Communication • Analytical / Critical thinking

Language

English - B2 (professional working proficiency)

Polish - B1

Russian - Native
